Love CONSTRUCTION

Level 1 Building Craft Occupations (BCO)

½ year full-time

Based at our nearby Masons Road workshops, this course is designed for someone thinking about a career in the Construction industry. It covers a variety of basic skills for a range of trades associated with the industry.

The emphasis for assessment is on a series of practical assignments. This is combined with written tests. This course runs from January to the end of May. It may be done as a stand-alone unit or combined with Level 1 Performing Engineering Operations (PEO).

To complete the course successfully you will need to have:

- Good hand-eye coordination
- Interest and commitment

Level 2 Diploma in Bricklaying

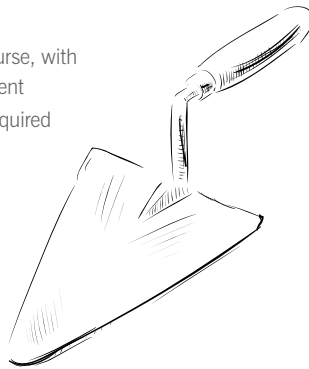

2 years full-time

This course is for students looking for a career in bricklaying and is the technical certificate of a Level 2 Apprenticeship. Students gaining employment while studying on the course can transfer to the apprenticeship programme.

The course includes a substantial element of practical work taught in the brick workshop on the main college site. It also includes theory and written work, which is classroom-based. Assessment is by practical project work and online exams. Progression is on to a Level 2 or Level 3 Apprenticeship or a Level 3 full-time course.

To join the course:

- Good hand-eye coordination is essential for this course, with a commitment to succeed in the building environment
- Good levels of Mathematics and English are also required
- A foundation in a Level 1 Construction course such as the BCO is a distinct advantage

Level 2 Diploma in Painting & Decorating

2 years full-time

This course is for students looking for a career in painting and decorating and is the technical certificate of a Level 2 Apprenticeship.

The course includes a substantial element of practical work, taught in the painting and decorating workshop at our Masons Road premises. It also includes theory and written work, which is classroom-based. Assessment is by practical project work and online exams. Progression is onto a Level 2 Apprenticeship.

Level 2 Diploma in Site Carpentry

2 years full-time

This course is for students looking for a career in Carpentry and is the technical certificate of a Level 2 Apprenticeship.

The course includes a substantial element of practical work, taught in the carpentry workshop at our nearby Masons Road premises. It also includes theory and written work, which is classroom-based. Assessment is by practical project work and online exams. Progression is onto a Level 2 Apprenticeship.

Level 3 Diploma in Brickwork

1 year full-time

The course will be delivered over one day and one evening per week. Assessment is by practical project work and online exams. This course covers advanced building techniques and vernacular restoration.

To join the course:

- You will need to have completed the Level 2 Diploma in Brickwork
