Executive Summary of Paper containing key issues:

Attached is a paper informing Governors of a new Government initiative around the introduction of Studio Schools.

This is potentially an additional source of income especially for 14-16 year olds. The College has expressed an interest with the Studio School Trust to establish a Studio School here with the first intake for September 2013. If approved, the next stage would be to work up a formal bid for funding and the establishment of the School.
